insurance providers. Private pay  
options are also available.

# CHECKLIST: AGES 4 AND UNDER

## Developmental Questionnaire Courtesy of Pine Cone Therapies

>	Is your child easily upset by changes in routine, disruptions in play, or transitioning between tasks?	<b>YES</b>	<b>NO</b>	>	Does your child make eye contact, follow your gaze, or look at an object that you pointed to?	<b>YES</b>	<b>NO</b>
>	Does your child engage in a particular movement repeatedly?	<b>YES</b>	<b>NO</b>	>	When speaking to your child, do they talk back or babble as if having a conversation?	<b>YES</b>	<b>NO</b>
>	Does your child recite specific songs, phrases, or words?	<b>YES</b>	<b>NO</b>	>	Does your child prefer to play alone or next to others rather than playing <i>with</i> others?	<b>YES</b>	<b>NO</b>
>	Did your child start to speak, say words, or talk by the age of three?	<b>YES</b>	<b>NO</b>	>	Is your child bothered by loud noises, smells, texture, foods, clothing, or being touched?	<b>YES</b>	<b>NO</b>
>	When you smile at your child, do they smile back?	<b>YES</b>	<b>NO</b>	>	Has your child's pediatrician, daycare, or school staff member raised concerns about your child's developmental needs or Autism Spectrum Disorder?	<b>YES</b>	<b>NO</b>

**Scoring:** If you've answered 5 or more questions in **BLUE**, we encourage you to explore additional testing for your child. Early diagnosis and intervention is key!

**SCHEDULING A NEUROPSYCHOLOGICAL ASSESSMENT IS THE FIRST STEP IN HELPING TO IDENTIFY AND SUPPORT YOUR CHILD'S UNIQUE DEVELOPMENTAL NEEDS. CONTACT US TODAY TO GET STARTED!**
